

# CHEMSTATION...

Your MicroBrewery Solution

## Choose Custom Formulated Detergents and Sanitizers from CHEMSTATION

To meet the specialized needs of the brewing industry, ChemStation manufactures water-based, biodegradable sanitation and process chemicals which:

- ◆ Are blends of synthetic detergents, emulsifiers and wetting agents
- ◆ Span the foaming spectrum from no-foam to high-foam
- ◆ Are safe for use on aluminum and other soft metal surfaces and on polycarbonate plastics
- ◆ Work effectively in hard or soft water and require no special softeners or additives
- ◆ Will not dull, waterspot or streak stainless steel, tile or painted surfaces

### A complete solution for your microbrewery with products including:

- ◆ Sanitizers
- ◆ Foaming and Nonfoaming Products
- ◆ CIP Cleaners
- ◆ Degreasers
- ◆ Foaming Chlorinated Cleaners
- ◆ Floor Soaps
