

FLEXOGRAPHIC PRINTING INDUSTRY

The ChemStation System offers custom-formulated, environmentally friendly, industrial cleaning and process chemicals, delivered to refillable containers.

- Anilox roll cleaners restore maximum cell volume without damaging ceramic, stainless steel, or chrome.
- Near-neutral pH formulations dissolve ink resins without damaging rollers.
- Custom formulations remove water-based and most solvent-based inks.

Environmental solutions with a refillable delivery system that eliminate potential environmental contamination from discarded containers.

Safe Solutions

- Low VOC formulations contain no chlorinated solvents.
- Products safe for use on many surfaces including photopolymer plates, rubber blankets, and rollers.

Custom Formulations

ChemStation can create special formulas to meet your requirements or specifications including chemical content, pH, foam levels, and VOCs.

Efficient Solutions

- Custom-formulated cleaning compounds are blended to meet your specifications.
- No time wasted ordering, receiving, handling, or disposing of containers.
- Product is where you need it, when you need it.
- Local manufacturing and delivery source.

Meeting All Your Needs

- ChemStation provides on-press as well as off-press cleaners.
- Multi-purpose cleaners for floors, equipment, and machinery are available.
